EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marc Wefers on 28 September 2009.

The application has been amended as follows:

- In Claim 1 Line 4 change "the scene" to --a scene--.
- In Claim 18 Line 2 change "provided by allocated" to --provided by allocating--.
- In Claim 19, Line 3 on page 38, change "a variance of one data value" to --an intensity variation of data values--.
- In Claim 19, Line 8 on page 38, change "the first and second variance data values" to --the first and second sets of variance data values--.
- In Claim 28 Line 2 change "provided by allocated" to --provided by allocating--.

Allowable Subject Matter

2. Claims 1 - 28 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art does not anticipate, nor does it suggest, the combination as claimed in the claims. Specifically, claims 1 and 19 recite "determining an intensity variation of data values in the first set of data values relative to other data values in the first set of data values to produce a first set of intensity variances, and determining an intensity variation of data values in the second set of data values relative to other data values in the second set of data values to produce a second set of intensity variances; and processing the first and second sets of intensity variance data to obtain image data of the scene containing depth information." These elements in combination with the remaining elements of their respective claims are neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Maki et al. U.S. Patent No. 6,072,903; which is directed to an image processing method and apparatus which produces three-dimensional position information.
- Melen U.S. Patent No. 6,222,938; which is directed to an apparatus and method for compensating pixel records of related images for detecting images disparity.
